

Caring for Caregivers

Walter Reed National Military Medical Center, Bethesda

IRBNet# 367721

IRB Approval Date: 23 September 2016

Do you care for a loved one who had a TBI after October 2001 while serving in the military?

We would like to talk to you about your health care needs.

If interested, email or call:
caregiver.study@dvbic.org
855-821-1469

Purpose: The purpose of this study is to conduct research requested by Congress to determine caregiver health care needs. Participate in online surveys from the comfort of your own home.

Benefits: Inform Congress of your health care needs. May improve health care services provided to you and your loved one.

Time Commitment: About 1 - 3 hours each year for up to 15 years.

You may receive payment for your participation.

Principal Investigator: Dr. Louis French, National Intrepid Center of Excellence

Study Title: Health-Related Quality of Life in Caregivers of Service Members and Veterans with Traumatic Brain Injury
